PERSONAL PROJECTS

Ecommerce site /*React.js, Redux, Javascript, CSS*

- Developed an e-commerce platform featuring a dynamic product catalog with categorized listings, enabling seamless navigation for users.

Resturant App/*ReactJS, Tailwind CSS*

- Created and developed a food ordering app using React and Tailwind CSS. Implemented user authentication, menu browsing, and order placement features. Optimized app performance for seamless user experience. Collaborated with a team to design and deploy updates based on user feedback. Demonstrated proficiency in React and Tailwind CSS.
- Implemented secure user authentication with login, registration, and logout functionalities, ensuring data privacy and user-specific interactions within the system while maintaining seamless integration with the product management functionalities.
